January 8, 2008

Dear Sir or Madam,

The Fisheries Scholarship Board of Directors is pleased to announce the initiation of a “Perpetual Fund” in the name of Roy Martin of the National Fisheries Institute.

The FSF Board reserves this type of “Living Tribute” for those who have made a special mark in the seafood industry through their contributions and accomplishments within the seafood industry and their community. Roy Martin exceeds this standard.

After a 17-year career with Swift Company, Roy Martin joined NFI as Vice President of the Science & Technology Department. Roy was responsible for the long range development and communication of technologies to aid future advances in the seafood industry. His responsibilities also included smoked fish research, aquaculture drugs, heavy metals, grade standards, biotoxins, HACCP, water utilization, shellfish regulation, Codex standards, E.U. directives and interpretation, and long distance learning development. Culminating his 42 years in the food industry, Roy retired from NFI as Senior Vice President. He was a professional member of the National Fisheries Institute staff for 27 years.

Roy also served as Executive Director for the National Aquaculture Council and the Molluscan Shellfish Institute and was Technical Director for the National Fish Meal and Oil Association. He is a Fellow of the Institute of Food Technologists, the American Institute of Chemists and the Washington Academy of Science. He is a recipient of the Atlantic Fisheries Technologists Earl P. McFee Award which recognizes excellence in the field of fishery technology. Before retiring, Roy was appointed by Virginia Governor Allen to serve on the Virginia Marine Products Board.

Roy presently resides with his wife Alma at Spring Hill, Florida and continues to consult for the food industry.

His fellow FSF Board Members wish to recognize Roy for his many accomplishments and generous contributions to the seafood industry by establishing a Fund in his name. The Board is asking for your help in attaining this goal. As you know, FSF funds are established through the generous donation made by individuals, friends, families and companies. Roy’s fund will become a perpetual fund when fundraising reaches $50,000.

Your contribution to Roy’s fund will be a wonderful way to acknowledge his many outstanding accomplishments and at the same time help to further the research on seafood and fisheries related issues. It is a great investment in our industry’s future. Thank you in advance for your support.

Sincerely,

Murray Berger
President
Roy Martin Living Tribute Fund
Contribution Form

Please choose one of the two methods to make your contribution.

1. Enclosed is my check made payable to Fisheries Scholarship Fund for the Roy Martin Living Tribute Fund, in the amount of $_______________________.

2. Please charge donation to my credit card information below.
